1. FIT/Math Pathways Kickoff meeting in this room on Monday July 2, 2012 Passed out agenda

- More students placing in developmental math and with AtD most students are in below college level courses.
- Summer Stipend of \$3000.00 for faculty to participate and 100 hours of release time
- Faculty will work on Mission Statement
- Maury will be helping with research
- Technology will be released to follow up on their process

2. Innovation Center/VDK D. Beaulieu and D. Harrington

- Having a faculty innovation center to have an incubator to have faculty coming in and have technology test-drive. Ideas like FTLA, have modules and activities on a year-round basis.

- Talking about having a space to talk about on-line resources, have a center, a neutral location, in which faculty can come and share ideas about innovations in teaching and learning.
- Discussion on Van de Kamp because the Board is debating its uses as a site for academic programs. CTE Activities, Contract Ed. training partnerships, Student Success Center-FTLA, or leasing it out or selling it.

3. Presentation on Increasing and Accelerating Student Completion through Student Services/Academic Affairs Partnering by Phyllis Braxton & Bob Martinez

- A presentation was given about development of the award-winning ASAP program at Pierce College. The presenters emphasized the inter and intra campus collaborations amongst faculty and staff that helped realize the implementation of this program that is demonstrating great strides in helping students complete math pathways.
